**Re: Ex Parte Meeting, WC Docket No. 18-213,
Promoting Telehealth for Low-Income Consumers**

Dear Ms. Dortch:

On November 21, 2019, the undersigned and Ilisa Paul, President of the District Policy Group at Drinker Biddle & Reath, met telephonically with Preston Wise, Rural Broadband Advisor in the office of Chairman Ajit Pai, to discuss how patients utilize Ochsner's remote monitoring capabilities to support better health outcomes by connecting remote monitoring devices to their own smart phones or tablets. Ochsner's efficient remote monitoring programs demonstrate significantly enhanced health outcomes for patients that use remote monitoring as a component of care as compared to traditional office visits only. Ochsner also discussed its views on the proposed parameters of the Commission's Connected Care Notice Pilot program, and this discussion was consistent with Ochsner's filed Comments and Reply Comments in the FCC's Connected Care record. Please direct any questions regarding this matter to the undersigned.

Respectfully submitted,

Laura H. Phillips
Counsel to Ochsner Health System
